Tina believers insist that no alternatives to such capitalist organizations of production exist or could work nearly so well, in terms of outputs, efficiency, and labor processes. 3 Community Capitalism. In the s, the state socialist countries realized that their systems of communist central planning were failing badly. Russia and Eastern Europe took a plunge into market capitalism and liberal democracy with what some call “shock therapy,” with mixed results, while China took a more gradualist approach to the problem. So, if not capitalism, what? It’s really very simple: An economic system designed first and foremost to meet the needs of human beings and the Earth and the non-human species who call it home, that honors the biological and moral fact of life that we are indeed all in this together. Rather than as an abstract “alternative” to [State-]Capitalism, as if sitting on an ahistorical plane of completely voluntary and even arbitrary choice, it is better to grasp real Marxian communism -- ‘Political-ECONOMIC DEMOCRACY’ -- as the “lawful” higher successor-system to the [State-]Capitalist system.

Alternatives to Capitalism: Proposals for a Democratic Economy is the new e-book from New Left Project. We will be publishing excerpts from the book over the coming weeks.
